

Meiners Safety Leasing Program For AEDs, Accessories, and Programs

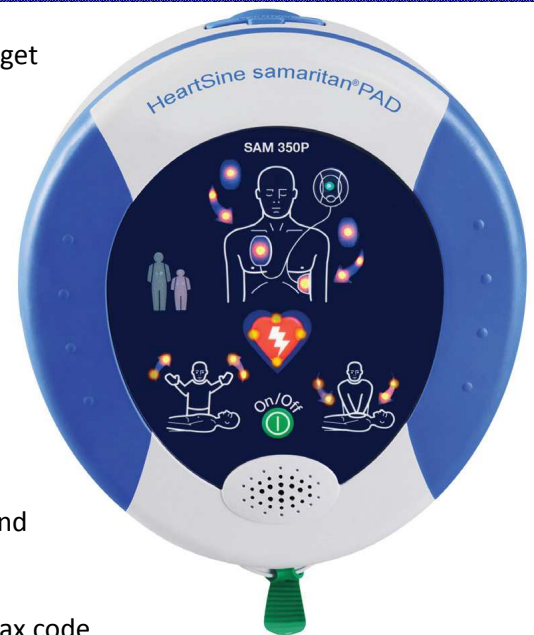

Lease a life-saving Automated External Defibrillator (AED), and eliminate your budget constraints with a low monthly payment. The Meiners Safety Leasing Program enables customers to lease one or more of our new AEDs for a low monthly cost, and a \$1 buy-out at the end of the lease.

Benefits To You:

Conserve Capital. Leasing can be one of your best options to obtain the equipment you need to protect your employees without spending your important capital reserves.

Affordable Payments. With affordable fixed monthly payments –as low as \$49– the Meiners Safety Leasing Program gives you a reasonably priced option for purchasing life-saving AEDs. Your payment remains the same from first to last, and the final buy-out is just \$1.

Tax Advantage. To encourage businesses to buy and lease new equipment, IRS tax code Section 179 allows businesses to deduct the full purchase price of qualifying equipment purchased or financed during the tax year. Deducting the full purchase price of AEDs from the company's gross income is a great way for your business to invest in its employees and itself!
